

Base:
acrylic resin

Package:
400 ml

Inral FLUORESCENT spray paint

Decorative, fast-drying acrylic spray enamel with special optical properties. The unique formulation ensures high durability and colour longevity. Enamel for decorative painting of various surfaces or for informative, advertising signs and inscriptions.

Area of use:

For decorating various surfaces and for painting advertising, information signs and lettering.

Advantages:

- Matte coating with fluorescent effect in the daylight
- Basic colours: red, orange, yellow, green, blue
- Lead- and chromate-free
- Ozone-friendly

Spray passes:

2-3 cross layers, spraying distance: 30 cm.

Drying times:

- Touch dry: about 20 min.
- Wet on wet: 5-10 minutes

Yield:

2 m² (from one 400 ml. can, one layer).

Usage:

Clean, degrease the surface and coat it with INRAL GROUND anti-corrosion white primer. Shake the can vigorously for 1 min. Spray evenly on the surface at a distance of 30 cm. Most effective when applied as a thin coat, with breaks, in several layers. When finished, turn the can upside down and clean the pulveriser by holding it down for a few seconds.

Safety data sheet:

presented separately.

Protection measures:

wear personal protection equipment (gloves / goggles). For more information, see safety data sheet.

Storage:

Store upright in a dry place at +5°C to +25°C. Do not expose the cans to direct sunlight or heat above 50°C.

Shelf life:

10 years if appropriate storage provided.
