

Inral Spray paints METALLIC

Spray acrylic varnish with a glossy metallic effect, fast drying, high quality, with excellent coating properties. Forms a strong, elastic coating. Used on many surfaces such as metal, wood, stone, glass, ceramics, paper, cardboard, rigid plastic. Ideal for indoor and outdoor applications. Used for decorating cars and motorcycles, painting bicycles, metal elements, wheel covers or rims. Also for various decorating tasks: metal, wood, aluminium or plastic items.

Area of use:

Can be used on a wide range of surfaces: metal, wood, stone, glass, ceramics, paper, cardboard, hard plastics.

Advantages:

- Fast drying with decorative metallic effect
- Hard, scratch resistant coating
- Resistant to environmental impacts
- Lead- and chromates-free
- Ozone-friendly

Spray passes:

1-2 cross layers, spraying distance: 30 cm.

Drying times:

- Dust free: in around 15 min.
- Touch dry: in around 30 min.
- Complete dryness: in around 2 h.

Yield:

2 m² (from one 400 ml. can, one layer).

Usage:

Wipe and degrease the surface. Shake the can vigorously for 1 min. Spray evenly on the surface at a distance of 30Cm. Most effective when applied as a thin coat, with breaks, in several layers. When finished, turn the can upside down and clean the pulveriser by holding it down for a few seconds

Base:

acrylic thermoplastic

Package:

400 ml

Safety data sheet:

presented separately.

Protection measures:

wear personal protection equipment (gloves / goggles). For more information, see safety data sheet.

Storage:

store vertically at +10 °C...+25 °C temperature and relative air humidity of max. 60%.

Shelf life:

10 years if appropriate storage provided.

Color tones:

Art. nr.	Color	Gloss level
